PRODUCT DESCRIPTION

G0 Versions

(with external vacuum generator).

The Coval CVGL series vacuum grippers, G0 version (with external vacuum generator), can be mounted on all types of automated or robotic systems. They can be easily installed (via M8 screws) with the included rectangular nuts, sliding in the grooves of the aluminum profile. These nuts are equipped with a spring plate to hold them in position when unscrewing.

- CVGL, G04 and G04 - 4 x M8 rectangular nuts.
- CVGL, G04 - 8 x M8 rectangular nuts.

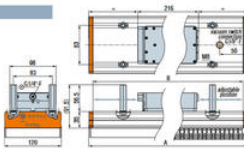

E1 or E2 Versions

(1 integrated vacuum generator, CMGL series).

The Coval CVGL series vacuum grippers, E1 and E2 versions, are mounted on all types of automated systems via M8 spacers pre-installed on sliding nuts.

- CVGL, G04 and G04 - 4 x M8 spacers.
- CVGL, G04 - 8 x M8 spacers.

E3 Versions

(2 integrated vacuum generators, CMGL series).

The CVGL vacuum grippers, E3 version, utilize adjustable M8 spacers.

- CVGL, G04 - 8 x M8 spacers.
